

## ANXIETY FOR DEPORTED MINERS.

Deputy Sheriffs Escorting Them  
From Victor Confronted by  
Armed and Masked Men.

## PRISONERS TAKEN FROM THEM.

Pursuing Parties Sent Out, but Re-  
turn After a Fruitless  
Search.

Victor, Colo., July 6.—Considerable anxiety is felt here for the safety of five men who were deported from this district by the military but have returned within the last week. The men were placed under arrest by the civil authorities as soon as it was learned that they had defied the orders given them at the time of their deportation. They were kept under guard at a hotel until last night when two deputy sheriffs started presumably to escort them out of the camp. At a point west of the city near the Santa Rita mine the deputies were suddenly confronted by half a dozen masked men who were heavily armed. The prisoners were taken from the deputies, as also were their guns, and they were ordered to return to town. This order they obeyed. A short distance from the point where the masked men first appeared the deputies saw a large band of masked men, numbering, they estimate, at least 50. Immediately upon returning to the city the deputies told the sheriff's office and the military headquarters of their experience. Details of troops were sent out to search for the mob and the kidnapped men, and Sheriff Edward Bell also led a posse in pursuit. All pursuing parties returned to the city after several hours' fruitless search. The hunt was resumed at daylight by the military.

## Deported From Telluride.

Telluride, Colo., July 6.—Five unionists were deported from Telluride by the civil authorities tonight. Thomas Nelson, president of the local miners' union, was met on the street by City Marshal Goyer and Deputy Sheriff Rannels who escorted him to the edge of the city and told him to keep going and never return to Telluride.

## DENVER ELECTION FRAUDS.

### Grand Jury Returns True Bills Against Thirteen Persons.

Denver, July 6.—The grand jury today returned true bills against 13 persons accused of complicity in election frauds at the city election held on May 17 last. Among the number was one woman, Lizzie Griffin, who is accused of repeating. Most of those indicted were judges and clerks.

## Child Killed in Hurricane.

Trinidad, Colo., July 6.—A hurricane tonight caused the death of Louis Lued, five years old, and destroyed much property. A number of buildings were wrecked. Roofs were torn from other buildings and trees uprooted. The storm was general and much damage to crops was caused.

## SLOCUM DISASTER.

### Federal Grand Jury Resumes Its Investigation.

New York, July 6.—The federal grand jury today resumed its investigation into the loss of the steamer General Slocum and the consequent loss of over 500 lives. United States Dist. Atty. Wise directed the inquiry. With two exceptions all the witnesses summoned

for today had been heard by the coroner's jury.

The local board of steamboat inspectors also began investigation into the burning of the General Slocum today. James A. Dumont and Thomas H. Barrett, inspectors of hulls and boilers, respectively, conducted the investigation. John Coakley, the deckhand of the Slocum, who testified at the coroner's inquest that he saw the fire as far down the river as Ninetieth street, was the first witness.

## Marconi Co. All Right.

New York, July 6.—The board of directors of the Marconi company has authorized the issuance of a statement in regard to the suit brought by Henry Gardner against the company and its directors. The plaintiff, it is said, is not a stockholder of record. The statement says: "The Marconi company is in the most satisfactory financial condition, having ample funds in the treasury for every purpose."

## IROQUOIS DISASTER.

### Every Evidence of Word on It Fated Theater Obliterated.

Chicago, July 7.—Every evidence of the word "Iroquois" in relation to the building formerly known as the Iroquois theater has been obliterated and not even the sign remains to remind passers by of the accident in which over 600 people lost their lives. Painters have obliterated the sign "Iroquois Theater" which extended along the side of the building and painted over it "Vaudeville Theater."

The gothic letters bearing the name which appeared above the main entrance have been chiseled out. Nothing yet has been substituted.

## Benedict Mandell, Aged 102, Dead.

Chicago, July 7.—Benedict Mandell, 102 years of age, is dead at the Jewish home for the aged. He was in perfect possession of his mental faculties to within five minutes of his death.

## Cured of Bright's Disease.

Mr. Robert O. Burke, Elmira, N. Y., writes: "I had to get up from twelve to twenty times a night, and I was all wasted up with dropsy and my eyesight was so impaired I could scarcely see one of my family across the room. I had given up hope of living when a friend recommended Foley's Kidney Cure. I bought a bottle and before I had taken the third bottle the dropsy had gone as well as all other symptoms of Bright's disease." F. J. Hill Drug Co.

## BACK FROM KOREA.

### Miss Best, American Missionary, Re- turns from the Orient.

Miss Margaret Best, who has spent the past seven years in Korea, as a Presbyterian missionary, is visiting the family of W. H. Tibbals, 1005 Third street. She is returning to New York, the mission headquarters, after a long absence and is happy, she says, to again be upon American soil. She left the orient early in May, but was detained for a month by a supposed case of plague. A fellow passenger was Jack London, the author. He had been deported by the Japanese, Miss Best believes, for having slapped his Jap servant.

Of present events in the far east Miss Best said:

"I really know nothing about the war. The Japs absolutely refuse to give out any information. They move as quickly and silently as possible, but we who watched the passing columns were unable to even learn their destination. While in Ping Yang I saw at least 40,000 troops pass through the city at one time. But we knew absolutely nothing about their destination. Of course, the Japs are hopeful of defeating the Russians. The consensus of opinion of the English-speaking people in the orient is that the Japs will win if they strike effectively in the next year. If they do not win by that time, the Russians will crush them by their superior forces. The Japs have not the resources of the czar.

"It is hard to tell just how the Koreans feel about the war. Some of them would like to have the Russians and others the Japs. At the same time all would much prefer being permitted to rule themselves. It is a question in my own mind whether they are capable of doing that. I really think the Japs would give them the best government."

## UTAH MEN SHIP TO KANSAS CITY.

Say Conditions in Bear River  
Valley Were Never Better  
For Stock Raising

## A GREAT SUGAR BEET DISTRICT.

Business at the Yards Was Not So  
Good Last Week as  
Formerly.

## Special Correspondence.

Kansas City, Mo., July 4.—R. O. Reese and W. W. Round of Benson, Utah, were at the yards yesterday with three carloads of stock, the latter with a carload of sheep and the former with two carloads of stockers. Mr. Round had been here before, but this was Mr. Reese's first trip to this market, he having been shipping to Omaha. Benson is up in the northern part of the state near the Idaho line in the Bear river valley, in the sugar beet and alfalfa district.

"The great drawback with us out in that country is the long distance from the markets," said Mr. Reese. "We were on the road with our stock over a week, and had to unload and feed three times. It is no better any other place, as the run to the Pacific coast markets are as long, while the markets themselves are not as good as the Missouri river markets. With sheep it makes less difference than with cattle, as sheep will stand the bumping around better than cattle."

And then speaking of the livestock conditions in that country Mr. Reese continued: "We have had splendid rains all spring, and we have an abundance of grass and feed for all kinds of stock. The alfalfa, which is our great stock feed, never looked better, and there will be a heavy crop this season. The wheat crop and oats are exceptionally good, and big yields are looked for. The Bear River valley has developed into a great sugar beet producing district during the past few years, and immense quantities are being raised this season. These beets also produce a great deal of feed for cattle and sheep, which is a great benefit to the livestock interests, as we do not raise any corn in that country."

"The number of sheep in northern Utah is becoming smaller each year, as the country settles up. All the good valley lands as well as all other lands that are tillable, are now very valuable and are under fence and in a high state of cultivation. This condition cuts off the open range for the sheepmen, and so cuts down the size of the flocks. There are more cattle raised, and the quality is good. The dairying and creamery interests are on the increase there and the country is filling up very fast."

## BUSINESS AT THE YARDS.

The total supply of cattle here last week dropped off 2,000 head, and a good part of the loss was prime beef steers. The best beef cattle sold steady to strong all week, good fed westerns selling at 5.25 to 5.75, and one bunch of Oklahoma hereabouts going at 6.00, top of the year for range bred steers. Medium grades of killing cattle are 10 to 15 cents lower. Straight grass cows and heifers sell at 2.50 to 3.50, and dry lot steers at 3.50 to 5.25. Inquiry for stockers was good, and the best kinds gained 10 to 15 cents; feeders were also strong all week. Western and Panhandle stockers and feeders, if they have quality, sell as high as natives, and are preferred in many cases, particularly by Illinois feeders; they range from 3.25 to 4.75. Some white-face, dehorned panhandle feeders, 900 pounds, sold at 4.00 this week. Thirty-two thousand head of cattle were taken to country feed lots from here last month, very heavy business for so early in the season. Yearling calves gained 50 cents last week, the best bring 4.75. Traders figure that best beef cattle will hold up, but market for other kinds, including stockers and feeders, is uncertain, with chances favoring low prices. Today is a holiday at all the markets, with, of course, no trading.

Sheep and lamb prices were again lower last week. Chicago has had a bad break lately, incident to the advent of the first heavy sheep from the northwest, and it has been reflected here. Texas muttons sold at 3.75 to 4.25 at the close of last week; spring lambs bring \$6.50 and Texas yearlings sold at 5.00 during the week. No western sheep have been received, most of the stuff being common natives, ewes up to 4.00, wethers, 4.50. Prices appear to be settled, and not much change is looked for soon. Stock and feeding sheep

and breeding ewes are wanted here, at from 2.50 to 3.25, but few are coming.

## WANT SAILORS FROM UTAH

Government Will Open Recruiting  
Office in This City on Monday.

Government officials request the Deseret News to announce that a naval recruiting office will be opened in the Dooly block on Monday, July 11, for general enlistments in the naval service. The officer in charge, Lieut. Price, has just received instructions from Washington to resume the enlistment of apprentices.

Boys of good character, not under 17 years of age, are required for enlistment as apprentices. They must have the written consent of their parents, properly executed, before a notary public, or before the recruiting officer. In addition to apprentices, the recruiting officer is especially desirous of obtaining machinists, electricians, clerks, seamen and coal passers. The enlisted force of the navy has recently been increased to 34,000, and opportunity for advancement was never greater than at present.

Deserving young men will find that ability is quickly recognized by promotion. With the system of recruiting now in vogue, securing young men from all parts of the country, the navy is at present getting a superior class of men, and a class that always reflects credit on the naval service.

## Doctors said He would not Live.

Peter Fry, Woodruff, Pa., writes: "After doctoring for two years with the best physicians in Waynesburg and still getting worse, the doctors advised me if I had any business to attend to I had better leave home at once, as I could not possibly live another month as there was no cure for me. Foley's Kidney Cure was recommended to me by a friend, and I immediately sent my son to the store for it and after taking three bottles I began to get better and continued to improve until I was entirely well." F. J. Hill Drug Co.

## SEVIER RESERVOIR.

### State Land Board Defers Action Awaiting Further Particulars.

The state board of land commissioners decided at its meeting yesterday afternoon not to take any definite action on the Sevier bridge reservoir project owing to the fact that State Engineer Doremus has not yet been furnished with sufficient data upon which to determine the feasibility of the project. The idea is to construct a dam across Sevier river in Juab county and store the waters for irrigating 10,000 acres of land in Millard county. It is estimated that the reservoir will cost \$130,000. As soon as the Millard county people interested in the scheme furnish the state engineer with the needed information, some action will probably be taken on the matter by the board.
